Project Name	OptiCrop – Smart Agricultural Production Engine
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
• Which crop will give me better profit? • Weather changes are affecting my farming. • I need simple farming guidance.	• I hope I don't choose the wrong crop. • Will the market price be good after harvest? • Can technology really help me?
PERSONA NAME <i>(Role / User Type)</i>	

•

DOES

- Checks weather and soil conditions.
- Consults local farmers and experts
 - Uses mobile apps or government websites for information.

•

FEELS

- Worried about crop failure
- Stressed due to financial risk.
- Hopeful for higher income and better yields.
